PROFILE

B.Tech graduate with a strong foundation in full-stack development, data analytics, and AI-powered solutions. Experienced in building web applications, developing interactive dashboards, working with databases, and automating business workflows. Passionate about transforming ideas and data into practical, user-focused solutions through technology, analytical thinking, and continuous learning.

EDUCATION

B. Tech, EIE – Mohan Babu University, Tirupathi **8.7 CGPA**
06/2022 – 04/2026

XII – C.N.Raju junior college, Rayachoti **7.1 CGPA**
06/2020 - 04/2022

X - Raju High School, Rayachoti **10.0 CGPA**
06/2019 - 03/ 2020

SKILLS

Programming Languages — Python, SQL, JavaScript
Full-Stack Development — React.js, Node.js, Express.js, HTML5, CSS3, REST APIs
Databases — PostgreSQL, MySQL
Data Analytics & Visualization — Power BI, Microsoft Excel, DAX, Power Query, Data Analysis, Data Visualization
AI & Automation — Generative AI, LLM Integration, Prompt Engineering, AI Chatbots
Core Concepts — Object-Oriented Programming, Problem-Solving, Data Validation, Debugging, API Integration
Tools & Technologies — Git, GitHub, VS Code, Postman

PROJECTS

The Crochee — Full-Stack E-Commerce & AI Automation Platform (
React.js | Node.js | Express.js | PostgreSQL | Supabase | REST APIs | Ollama
- Developed a full-stack e-commerce platform with **10+ integrated modules** for product management, orders, payments, custom requests, and delivery workflows.
- Built an **Ollama-powered AI chatbot** integrated with application data to answer customer queries about products, orders, and order status.
- Integrated REST APIs and automated workflows for payment verification, customer notifications, pincode validation, shipping calculations, and delivery estimation.

Next-Gen Student Ecosystem
Python | Django | HTML | CSS | SQL
- Developed a student management platform using Python and SQL, processing **6,000+ academic records** through database-driven operations.
- Implemented role-based dashboards, reporting modules, and reusable components to organize and manage academic information.
- Built a keyword-based chatbot for academic information retrieval and insights, integrating database-driven information with the application.

IPL Insights — Power BI Analytics Dashboard
Power BI | DAX | Power Query | Data Modeling
- Analyzed data across **15+ IPL seasons** to identify player, team, and match-performance trends using interactive Power BI dashboards.
- Developed **17+ DAX measures** and a star-schema data model to support performance analysis and reporting.
- Used Power Query for data transformation and preparation, creating visualizations to communicate data-driven insights.

CERTIFICATES

Data Analytics Internship
Issued on 08/2025

PowerBI Workshop
Issued on 06/2025

SQL Bootcamp
Issued on 07/2025

Prompt Engineering
Isssued on 05/2026

EXTRA CURRICULAR ACTIVITIES

Executive - EIE Department, ISTE Champs

NCC-B Certificate
