PROFILE

B.Tech graduate with an 8.7 CGPA and experience in Python, SQL, Power BI, and Advanced MS Excel. Developed software applications and data-driven solutions through academic and internship projects, including analytics platforms, web applications, and dashboards. Strong foundation in software development, database management, data analysis, and problem-solving, seeking entry-level opportunities in Python Development and Data Analytics.

EDUCATION

B. Tech, EIE – Mohanbabu university, Tirupathi **8.7 CGPA**
06/2022 – 04/2026

XII – C.N.Raju junior college, Rayachoti **7.1 CGPA**
06/2020 - 04/2022

X - Raju High School, Rayachoti **10.0 CGPA**
06/2019 - 03/ 2020

SKILLS

Programming Languages — Python, SQL, JavaScript
Web Technologies — HTML, CSS
Databases — MySQL
Data Analytics — Advanced MS Excel, Data Cleaning, Data Analysis, Data Visualization, DAX, Power Query
Software Development — Object-Oriented Programming, Database Management, Debugging
Tools — Power BI, Git, GitHub, VS Code
Core Concepts — Data Structures & Algorithms, Problem Solving

INTERNSHIP EXPERIENCE

Code Tech IT Solutions 2025/06 – 2025/08
Intern
• Processed and validated **1000+ structured records** using **Python, SQL, and Advanced MS Excel**, improving **data accuracy** and reporting quality.
• Performed **data cleaning**, **analysis**, and **transformation** while generating analytical reports to support business processes and data-driven decision-making.
• Assisted in **software-supported reporting workflows**, **database operations**, and **data visualization**, strengthening problem-solving and debugging skills.

PROJECTS

Next-Gen Student Ecosystem
• Developed a **Python-based student management platform** processing **6000+ academic records** with secure **role-based access** and **database-driven operations**.
• Built **web-based dashboards** and **reporting modules** to monitor attendance, CGPA, financial records, and placement insights for data-driven decision-making.
• Integrated a **keyword-based chatbot**, **automated reporting**, and **data validation** features to improve workflow efficiency and information accessibility.

IPL Analytics Dashboard | Power BI
• Analyzed **15+ IPL seasons (2008–2025)** using **Power BI**, transforming and modeling **structured datasets** to identify team performance trends and player statistics.
• Developed **17+ DAX measures**, **Power Query transformations**, and a **star-schema data model** for dynamic reporting.
• Designed **interactive dashboards** with **dynamic filters**, **KPI cards**, and performance visualizations to deliver actionable insights and enhance data storytelling.

CERTIFICATES

SQL Bootcamp
Issued on 07/2025

PowerBI Workshop
Issued on 06/2025

Prompt Engineering
Isssued on 05/2026

Mepro Pearson - level 10
Issued on 31/07/2024

EXTRA CURRICULAR ACTIVITIES

Executive - EIE Department, ISTE Champs

NCC-B Certificate
